INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

(Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

				
Applicant's or agent's file reference PCT 14/04		FOR FURTHER A	FOR FURTHER ACTION See Form PCT/IF	
	International application No. International filing date PCT/IT2004/000141 22.03.2004		(day/month/year)	Priority date (day/month/year) 10.04.2003
	mational Patent Classification (IP 1N1/40, A61N1/06	C) or national classification and I	PC	
	olicant NSEGNA, PIER LUIGI-MA	ARIA		
1.	This report is the internation Authority under Article 35 a	nal preliminary examination re nd transmitted to the applicar	eport, established by nt according to Article	this International Preliminary Examining 36.
2.	This REPORT consists of a total of 5 sheets, including this cover sheet.			
3.	This report is also accompanied by ANNEXES, comprising:			
	a. 🗆 sent to the applicant	t and to the International Bure	eau) a total of sheets	s, as follows:
	sheets of the description, claims and/or drawings which have been amended and are the basis of this repo and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).			
	sheets which subeyond the discSupplemental B	losure in the international app	hich this Authority co Dication as filed, as in	nsiders contain an amendment that goes adicated in item 4 of Box No. I and the
	sequence listing and	ional Bureau only) a total of (i lor tables related thereto, in c uence Listing (see Section 80	computer readable for	nber of electronic carrier(s)) , containing a rm only, as indicated in the Supplemental ve Instructions).
4.	. This report contains indications relating to the following items:			
	Box No. I Basis of t	he opinion		
	☐ Box No. II Priority			
		olishment of opinion with rega	ard to novelty, inventi	ve step and industrial applicability
	p	nity of invention	,,	or ottop and madema, approaching
	☑ Box No. V Reasoned		2) with regard to nove s supporting such sta	elty, inventive step or industrial tement
	☐ Box No. VI Certain do	ocuments cited		
	☐ Box No. VII Certain de	efects in the international app	lication	
	Box No. VIII Certain of	oservations on the internation	al application	
Date	Date of submission of the demand		Date of completion of	this report
09.	11.2004		09.03.2005

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No. PCT/IT2004/000141

_				
_	Box No. 1	Basis of the report		
1	. With regard filed, unles	d to the language , this report is based on the international application in the language in which it wa s otherwise indicated under this item.		
	This report is based on translations from the original language into the following language, which is the language of a translation furnished for the purposes of:			
	∟ pub	ernational search (under Rules 12.3 and 23.1(b)) Dication of the international application (under Rule 12.4) ernational preliminary examination (under Rules 55.2 and/or 55.3)		
2.		d to the elements* of the international application, this report is based on <i>(replacement sheets which furnished to the receiving Office in response to an invitation under Article 14 are referred to in this priginally filed" and are not annexed to this report):</i>		
	Description	, Pages		
	1-8	as originally filed		
	Claims, Nun	nbers		
	1-13	as originally filed		
	Drawings, S	heets		
	1/5-5/5	as originally filed		
	□ a seque	ence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing		
3.		nendments have resulted in the cancellation of:		
	⊔ the d	description, pages claims, Nos.		
	☐ the o	drawings, sheets/figs sequence listing <i>(specify)</i> :		
	☐ any	table(s) related to sequence listing (specify):		
4.	Supplement	port has been established as if (some of) the amendments annexed to this report and listed below n made, since they have been considered to go beyond the disclosure as filed, as indicated in the al Box (Rule 70.2(c)).		
	☐ the d	description, pages claims, Nos.		
	☐ the c	drawings, sheets/figs		
	☐ the s	sequence listing <i>(specify)</i> : table(s) related to sequence listing <i>(specify)</i> :		
	* If ite	m 4 applies, some or all of these sheets may be marked "superseded."		

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No. PCT/IT2004/000141

_									
_	Box	x No. II Priority							
1.		 This report has been established as if no priority had been claimed due to the failure to furnish within the prescribed time limit the requested: ☑ copy of the earlier application whose priority has been claimed (Rule 66.7(a)). ☐ translation of the earlier application whose priority has been claimed (Rule 66.7(b)). 							
2.	This report has been established as if no priority had been claimed due to the fact that the priority claim had been found invalid (Rule 64.1). Thus for the purposes of this report, the international filing date indicated above is considered to be the relevant date.								
3.	Add	litional observation	s, if necessary:						
	Box app	No. V Reasone licability; citation	ed statement und s and explanation	er Article ns suppoi	35(2) with regard to novelty, inventive step or industrial rting such statement

Industrial applicability (IA)

Re Item V.

1. The following documents are referred to in this communication:

D1: ES 2 081 241 A (SANCHEZ SORIANO JOSE) 16 February 1996

D2: US 5 003 991 A (ABE MASASHI ET AL) 2 April 1991

D3: US 4 846 196 A (WIKSELL HANS O T ET AL) 11 July 1989

2. INDEPENDENT CLAIM 1

2.1 The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of the single independent apparatus claim 1 is not new in the sense of Article 33(2) PCT.

Document D1 discloses (the references in parenthesis applying to this document): an apparatus for non-destructive hyperthermia therapies (see figure 1) comprising means for generating radiofrequency electromagnetic radiations (the diathermy generator 1) connectable to means (the electrodes 3,4) for the application of said radiations to the human body.

Therefore, document D1 discloses the combination of features in claim 1, whose subject-matter is not new (Art. 33(2) PCT).

2.2. The applicant should note that also documents D2 and D3 deprive claim 1 from novelty (see Art. 33(2) PCT and the passages cited in the international search report).

3. DEPENDENT CLAIMS 2-13

The dependent claims currently on file do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step for the following reasons.

3.1. NOVELTY (ART. 33(2) PCT)

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (SEPARATE SHEET)

International application No.

PCT/IT2004/000141

The additional features of claims 2, 3, 5-7 and 10 have already been disclosed in D1 (see figure 1 and col. 2, line 41 - col. 3, line 15). These claims, thus, lack novelty in view of D1.

Claims 9 and 11 depend on claim 1 directly and their additional features have been disclosed in D2 (see figure 11). The subject-matter of claims 9 and 11 is not new in view of D2.

Claim 8 depends on claim 1 directly and its additional feature has been disclosed in D3 (see col. 4, lines 8-17)). The subject-matter of claim 8 is not new in view of D3.

3.2. INVENTIVE STEP (ART. 33(3) PCT)

The additional features of dependent claim 4 have been disclosed in D2 (see col. 6, lines 19-28). Nevertheless, the subject-matter of claim 4 differs from the apparatus known in D2 in that one electrode is a reference electrode (this feature has been defined in claim 2 on which claim 4 depends). Since this difference appears trivial to the person skilled in the art, claim 4 does not involve an inventive step.

Although the additional features of claims 12 and 13 have not been disclosed in the available prior art, they relate to minor constructional changes which come within the scope of the customary practice followed by persons skilled in the art, especially as the advantages thus achieved can readily be foreseen. Consequently, the subject-matter of claims 12 and 13 also lacks an inventive step.
